## N. Y. GOVERNOR PLANS UNEMPLOYMENT RELIEF

### Snowden Is to Retire From British Public Life

#### WILL NOT BE A CANDIDATE FOR RE-ELECTION

CHANCELLOR OF EXCHEQUER  
WILL SEE PRESENT BRITISH  
DIFFICULTIES THROUGH

PRIME MINISTER MAC DONALD  
UNDECIDED ABOUT HIS  
POLITICAL LIFE  
By VIRGIL PINKLEY  
(United Press Staff Correspondent)

London, Aug. 28.—Chancellor of the Exchequer Philip Snowden served notice today of his impending retirement from British public life.

The chancellor wrote the president of the labor party in Colney Valley Division, his constituency, that he would not be a candidate for re-election to parliament at the next fiscal elections.

It was learned simultaneously that Prime Minister Ramsay MacDonald was awaiting the action of his constituents at Seaham before deciding on his future plans, but that in any event he would continue to give all his efforts to solving the present national situation.

Reports were current today that Snowden already had resigned but they were denied to the United Press by the chancellor's secretary. The report was branded "a complete canard." Snowden issued a statement saying he would see the present difficulties through before he retired from office. The chancellor made it clear that he reached his decision some months ago and was not influenced by the recent financial emergency. His statement evidently referred to recent reports that he and Prime Minister Ramsay MacDonald would not contest the next election.

"I intimated to the prime minister four months ago that when the budget was through and I had carried out the large conversion operation which I contemplated I should ask him to relieve me of my office and that under no circumstances would I attempt re-election," Snowden's statement said.

"When the international financial crisis arose I felt it my duty to stay in office until I had seen these difficulties through. My decision therefore has nothing whatever to do with recent events."

Liberal members of parliament, members of the house of lords, and party candidates meeting at the national liberal club approved the action of their leaders in joining the national government.

Out of 150 votes, only one was dissenting. The name of the dissentient vote was not disclosed.

Lossiemouth, Eng., Aug. 28.—Prime Minister Ramsay MacDonald arrived home today from London, denying reports that he had determined not to seek re-election.

"The report I will not seek re-election is 'unreliable,'" the labor leader said, "I have come to no such decision yet."

By WEBB MILLER  
(United Press Staff Correspondent)

London, Aug. 28.—Great Britain reached the turning point of her modern political history today, with a vast shift in political leadership imminent.

All parties united in the effort to solve the grave financial crisis, with the understanding that after it has been settled, a general election will be held and the country turned open to new leadership.

The following significant developments occurred during the day:  
Philip Snowden, chancellor of the exchequer, admittedly one of the outstanding geniuses of the labor party, announced his impending retirement from public life.

J. Ramsay MacDonald, long labor's leader and three times premier, was definitely through as the leader of the entire labor party. Whether he would remain to lead a "right" faction, or shift his party, was problematical, but he was obviously considering retirement. When he reached Lossiemouth, Scotland, for a brief holiday, he said the report he would not seek re-election was "unreliable" and that he had "come to no such decision yet."

The parliamentary labor party elected Arthur Henderson, MacDonald's rival, leader of the party today in succession to MacDonald. There were only six dissenting votes.

John R. Clynes was elected deputy leader.

A resolution was adopted declaring the labor party the official opposition to the national government.

Lord Sankey was the only member of the new government attending. He was given respectful attention when he pleaded for support of the government.

Malcolm MacDonald, the premier's son, attended. The Rev. James Barr presided.

Clear Lake, Ia., Aug. 28.—(UP)—Clear Lake counted one dead today and at least a dozen injured in a tornado that ripped across this section of northern Iowa to the accompaniment of pelting hailstones and flashes of lightning.

There was little activity in the summer resort cottages around Clear Lake and in the amusement park on the lake shore late yesterday. The few cottagers who were out-of-doors saw the sky darken and then turn nearly black.

They rushed for shelter and from their frame bungalows watched the approach of the black tornado cloud. The wind roared as it swept in from the lake.

A large excursion boat, the Princess, overturned and sank; fragile summer cottages crumpled and collapsed; the roller coaster in the amusement park toppled over; roofs were whipped from dozens of buildings in the summer colony and likewise in the up-town section; electric light and telephone lines were damaged.

Bessie Rist of Algona went down beneath a crashing timber as the storm swept over. Her neck was broken and she died.

Milwaukee, Wis., Aug. 28.—An electrical, wind and rain storm last night blew down high tension wires, sent lightning bolts against a street car and several residence and left two persons injured.

Mrs. Erna Toussaint, 45, and her daughter, Jane, 12, were burned when their automobile struck a dangling high tension wire. Ten passengers on a street car escaped injury when lightning struck the trolley.

#### CARROLL OPENS NEW THEATRE IN N. Y. CITY

9TH EDITION OF VANITIES IN  
BRILLIANT \$4,500,000 PLAY  
HOUSE

NEW "EARL CARROLL THEATRE"  
DEDICATED TO LOW PRICE  
POLICY

New York, Aug. 28.—(UP)—Earl Carroll, who began his theatrical career as a Pittsburgh usher and worked up via Atlanta prison after a famous bathtub party, opened his brilliant \$4,500,000 theater here last night with his ninth edition of "The Vanities."

The premier of the producer's famous revue formally dedicated "The Earl Carroll Theater" to a low price policy intended to revive interest in the legitimate stage.

The musical revue is probably the most beautiful and costly of all Carroll's shows, but it did not overshadow the beauty of the theater.

Three thousand persons, including many prominent in society and on the stage and screen, expressed unceasing admiration for the playhouse, and gave Carroll a rousing ovation at the end of the first act when the producer spoke briefly of his new enterprise.

A prospect that he, too, would soon be through with politics.

Of the leaders of the last decade, only Stanley Baldwin, the conservative chief, still remained in the saddle.

The conservatives met today and announced their determination to reverse Britain's free trade policy and impose a tariff, after deposing labor from its rule of the country and taking over the reins.

"When the economies are carried out, the budget balanced and parliament dissolved," Baldwin said, "we will have a straight fight on tariffs and against the labor party."

The temporary national government made up of the three parties, it was disclosed, not only will include a ten per cent reduction of the debt in its economy program, but would consider a drastic cut in arms expenditures—which would be the most concrete step towards arms limitation achieved in a decade of international conferences and agreements.

#### DOCTOR SERIOUSLY WOUNDED, SHOT AS HE SAT IN HIS CAR

Chicago, Aug. 28.—(UP)—Dr. L. H. Schultz was seriously wounded today in a mysterious attack while he was driving from a hospital to his home in the suburb of Elmhurst.

Schultz was found in his automobile, which apparently had been crowded against the curb by another car. Part of his face had been blown away by a shotgun charge which was fired through the window of his sedan. Contents of his medicine kit were strewn about, but apparently nothing was missing.

#### LINDBERGH HEARD BY TRANS-PACIFIC RADIO IN AMERICA

RESPONDS TO SPEECHES BY  
JAP OFFICIALS AND MINIS-  
TERS OF GOVERNMENT

WELCOME DINNER IS ACCORDED  
THE FAMED FLYING  
PAIR AT TOKIO

New York, Aug. 28.—(UP)—Colonel Charles A. Lindbergh was heard by trans-Pacific radio in America today as he responded to speeches by Japanese officials and ministers of the government, at a welcome dinner in Tokio.

Col. Lindbergh expressed the gratitude of himself and his wife at the reception given them in Japan, saying that "the true character of Japan was most impressed upon us when we landed in the fog in the heart of your country. We were unknown. We spoke a strange language. They came out in the rain to assist us, and took us to a village for a dinner of rice. We have spent only two days in Tokio since we first entered your country. Were we to leave tomorrow, we would take with us from Japan the experiences worth many times the efforts of the flight."

The speech was rebroadcast in the United States by the National and Columbia Broadcasting Companies.

The colonel spoke of the advance made by aviation and radio "as an indication of what will be done before the century is over."

"With the advance of radio and aircraft," he said, "the mystery of distance can no longer exist. We are interested in many of the same things and confronted by similar problems. The ideas which we have inherited from past ages become insignificant when we look at people from the sky and speak to distant people through the radio."

"We look upon a distant country as being of no concern to us. There are no longer distant countries. The distances of past ages have become less significant to us today. The distances of today will become just as insignificant in the years of future generations."

Col. Lindbergh was introduced by W. Cameron Forbes, the American ambassador to Japan, who paid high tribute to the aviator and his wife for their achievement.

He was preceded by Matajiri Kozumi, minister of communications; General Giyo Minomi, minister of war; and Admiral Kiyokazu Abo, minister of the navy.

The latter said that Col. Lindbergh and his wife had "not disappointed the finest expectations of the Japanese people" in their remarkable flight across the top of the world to Japan. He hailed the flight as introducing a new era in relations between the United States and his own country, and especially complimented Mrs. Lindbergh for her work as radio operator.

"They have made a lasting impression on the people of Japan and the people of all the world," he said as he proposed a toast to their health.

Translation of the Japanese speeches was made by L. Komatsu, a Japanese business man and graduate of Harvard University.

#### Thwarted in Desire to Become Cowboy, Boy of 12 Kills Self

Newton, Minn., Aug. 28.—(UP)—A thwarted desire to run away and become a cowboy was blamed today for the suicide of William Korkala, 12.

The boy's body was discovered late Thursday by his brother. William had been missing for two days. The body was found in a cornfield on the Korkala farm. A bottle of carbolic acid had been taken by the boy.

#### VIOLENT QUAKES NEAR FRONTIER OF AFGHANISTAN

Karachi, India, Aug. 28.—(UP)—violent earthquakes shook the Quetta region, near the Afghanistan frontier, today. The town of Sharigh was reported to have disappeared. Telegraph and railway services were disrupted. The shocks were felt here, 400 miles from the scene of the disaster.

#### TRACING SOURCE OF 4 REVOLVERS IN JAIL PLOT

DEALT DEATH TO SURGEON AND  
TRUSTY AND 4 PRISONERS AT  
MARQUETTE PRISON

ALL NIGHT VIGIL MAINTAINED  
BY PRISON GUARDS, STATE  
TROOPERS, CITY POLICE

Marquette, Mich., Aug. 28.—(UP)—Source of the four revolvers, which dealt death to a physician and trusty and four gangster inmates during a frustrated escape plot, was being investigated today by state and Marquette prison officials.

The warden, James P. Corgan, was convinced the weapons were smuggled into the prison by confederates of four Detroit desperadoes. The four killed themselves after losing their bid for freedom yesterday.

Oscar G. Olander, state commissioner of public safety, and Walter Gies, a member of the state prison commission, assisted Corgan in the investigation.

Prison guards, state troopers and city police maintained an all-night vigil as a precautionary step. The warden today reported the 937 inmates were orderly.

In the bold escape attempt, which was foiled by tear gas bombs, Dr. A. W. Hornbogen, former president of the Michigan Medical Society, was killed. Frank Oligschlager was fatally wounded while trying to beat off the killers with his fists, and Leo Bolger, another trusty, was wounded trying to aid Oligschlager. Joseph Coroling, a guard, also was wounded.

The convicts who committed suicide were Andrew Germano, Frank Hofner, Martin Duver and Charles Rosbury, all serving long terms. They shot themselves when wardens met their demands for a safe escort out of the prison yard with tear gas bombs and machine gun fusillades.

Dr. Hornbogen, who was substituting as prison physician, apparently was killed to satisfy a whim of Germano, whose convict cronies, Edward Wiles, died in the prison from a heart and kidney ailment several weeks ago. He was slain at the inception of the outbreak, which ended when three of the dead convicts took refuge in a box factory in the prison yard after seizing a turnkey and two guards to use as hostages.

After a preliminary investigation, the warden expressed the belief that only the four dead convicts were implicated in the escape plot. Fred (Killer) Burke, notorious gang leader, was one of the first questioned. He recently began a life term for killing a St. Joseph, Mich., policeman.

Commissioner Olander went to the prison by airplane from Escanaba on orders of Gov. Wilbur M. Brucker, who declared he had "perfect confidence that Warden Corgan has the entire situation well in hand."

LAWYER IS DETAINED

BAND OF KIDNAPERS SEEK TO  
GET \$25,000 FROM THE  
BOY'S FATHER

New York, Aug. 28.—(UP)—A police plane was ready today to ride the airways in pursuit of a carrier pigeon believed to have been used by an ingenious band of kidnapers. They attempted to extort \$25,000 for the return of the 16-year-old son of a prominent attorney who told them to "go to hell."

"A man called 'former' Municipal Court Justice Edgar F. Hazelton and informed him the ransom amount had been raised from \$2,500 because of the attorney's determination to take the case before the Queens county grand jury."

Hazelton, who has refused to continue negotiations unless definite proof is advanced that his son, Edgar, Jr., is detained, replied: "Go to hell!"

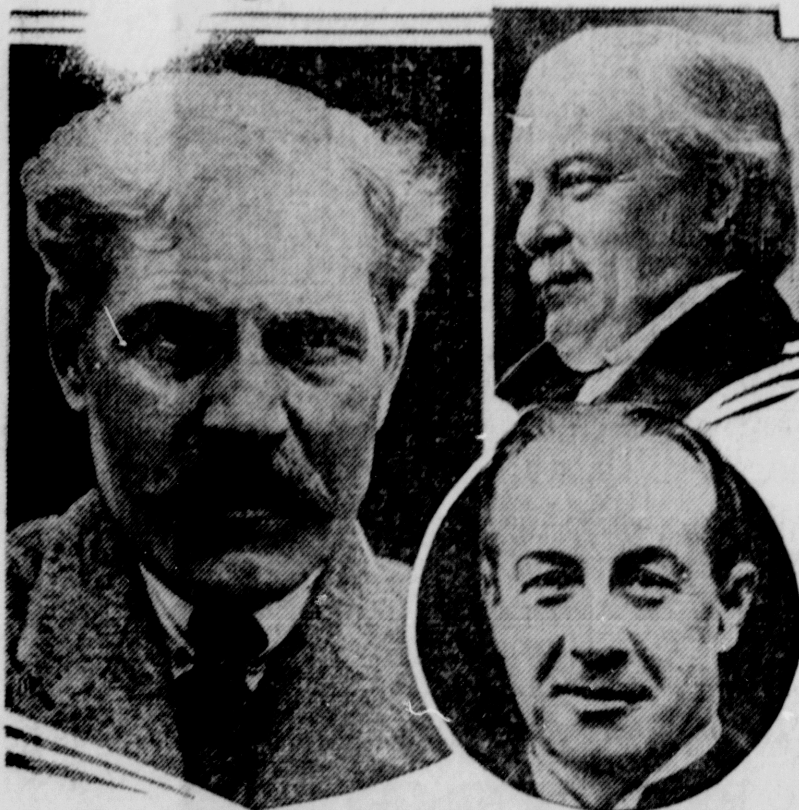

The ransom demands were accompanied by carrier pigeons equipped to carry currency attached to their legs. Hazelton tied a note to three of the birds asking that a message establishing his son's safety be sent. The supposed kidnapers refused. Queens police made plans to follow a fourth pigeon when it is released today.

#### MISS AMY JOHNSON LANDS AT MUKDEN

The big three of Great Britain's newly formed national government are shown here. Ramsay MacDonald (left), leader of the Labor Party, who retains the premiership, shares with former Premier David Lloyd George (upper right) and Sir Stanley Baldwin (lower) the responsibility of guiding Great Britain through the financial crisis. Lloyd George, because of illness, is represented in the cabinet by Sir Herbert Samuel, acting Liberal Party leader.

#### ROOSEVELT ASKS APPROPRIATION OF 20 MILLION

ADDRESSES SPECIAL MESSAGE  
TO EXTRAORDINARY SES-  
SION OF LEGISLATURE

PROPOSES TO RAISE MONEY BY  
50 PER CENT INCREASE IN  
STATE INCOME TAXES

Albany, N. Y., Aug. 28.—(UP)—Gov. Franklin D. Roosevelt today asked for an appropriation of \$20,000,000 to aid in unemployment relief, in a special message to the extraordinary session of the state legislature.

The governor proposed to raise this money through an increase of 50 per cent in state income taxes in all brackets.

Roosevelt proposed measures by which workers on state and municipal contracts will labor only five days a week, excepting only the workers engaged in advisory or executive capacity.

Under the governor's recommendations, a temporary emergency relief commission consisting of three members would be set up.

Expenditure of the proposed \$20,000,000 would be under direction of the commission.

Five measures drafted in accordance with the governor's views were introduced simultaneously, to effectuate the program.

The Roosevelt program, placing the burden of relief on the 13,000,000 more fortunate residents of the state, contemplates no expectation of federal aid.

"It is idle for us to speculate upon actions which may be taken by the federal government," the governor said in his message to the legislature.

Roosevelt stressed the fact that responsibility for relief rests squarely upon the state and community as a matter of social duty. To that end, he proposed launching a building program which will give work to idle thousands.

A provision of his program is that there shall be no cash dole.

Income taxes in all brackets above net income of \$2,500 would be affected by the rise, which is approximately 50 per cent over the present tax.

Many Roosevelt followers expected the governor's action today might be the guide for similar legislation throughout the country.

#### HERNDON, PANGBORN MAY NOT FLY ACROSS PACIFIC

Tokio, Japan, Aug. 28.—(UP)—Hugh Herndon, Jr., and Clyde Pangborn, American fliers, probably will be refused a permit to fly across the Pacific ocean despite intervention by the United States embassy, according to reports from government quarters tonight.

It is understood that Herndon and Pangborn are held to have forfeited their rights to a permit because they photographed Japanese fortifications while flying from Siberia to Tokio.

U. S. Ambassador W. Cameron Forbes, now host of Col and Mrs. Charles A. Lindbergh, inquired into the status of the aviators' attempts to obtain a permit on advice from the state department at Washington.

Herndon and Pangborn flew from the United States to Siberia on a projected trip around the world, which they later abandoned. Arriving in Tokio they planned to seek a \$25,000 prize on a non-stop flight across the Pacific but were held by Japanese authorities and their plane temporarily detained. Later they were fined.

#### Forest Fire Near Chateau, Mont., Claims Four More Victims

Spokane, Wash., Aug. 28.—(UP)—The raging Waldron Creek forest fire west of Chateau, Mont., had claimed four more victims today. The bodies had not been definitely identified. They were believed to be four men missing from a Lewis and Clark National Forest crew.

It was believed that the victims were Charles Allen, Pittsburgh, Pa.; Harry Gunnerson, Herb Novotny and Frank Williams, Great Falls, Mont.

The bodies were being taken seven miles through wild forest country to Chateau.

#### DRIVE AGAINST BOOTLEGGERS

Racine, Wis., Aug. 28.—(UP)—A joint federal, city and county drive against Chicago bootleggers and gangsters was on today.

Four stills, with daily capacity of 1,000 gallons of liquor, and an alcohol depot had been raided and two men arrested as the result of a plea to police for protection by Allen Robinson, self-styled "independent bootlegger."

Robinson told police he had been threatened with death if he did not leave the city by gunmen he termed "Capone men."

Marquette, Mich., Aug. 28.—(U.P.)—Source of the four revolvers, which dealt death to a physician and trusty and four gangster inmates during a frustrated escape plot, was being investigated today by state and Marquette prison officials.

The warden, James P. Corgan, was convinced the weapons were smuggled into the prison by confederates of four Detroit desperadoes. The four killed themselves after losing their bid for freedom yesterday.

Joseph Corolling, a guard, also was wounded.

The convicts who committed suicide were Andrew Germano, Frank Hofner, Martin Duver and Charles Rosbury, all serving long terms. They shot themselves when wardens met their demands for a safe escort out of the prison yard with tear gas bombs and machine gun fusillades.

Dr. Hornbogen, who was substituting as prison physician, apparently was killed to satisfy a whim of Germano, whose convict crony, Edward Willes, died in the prison from a heart and kidney ailment several weeks ago. He was slain at the inception of the outbreak, which ended when three of the dead convicts took refuge in a box factory in the prison yard after seizing a turnkey and two guards to use as hostages.

After a preliminary investigation, the warden expressed the belief that only the four dead convicts were implicated in the escape plot. Fred (Killer) Burke, notorious gang leader, was one of the first questioned. He recently began a life term for killing a St. Joseph, Mich., policeman.

BAND OF KIDNAPERS SEEK TO  
GET \$25,000 FROM THE  
BOY'S FATHER

New York, Aug. 28.—(U.P.)—A police plane was ready today to ride the airways in pursuit of a carrier pigeon believed to have been used by an ingenious band of kidnapers. They attempted to extort \$25,000 for the return of the 16-year-old son of a prominent attorney who told them to "go to hell."

"A man called former Municipal Court Justice Edgar F. Hazelton and informed him the ransom amount had been raised from \$2,500 because of the attorney's determination to take the case before the Queens county grand jury."

Hazelton, who has refused to continue negotiations unless definite proof is advanced that his son, Edgar, Jr., is detained, replied:

"Go to hell!"

The ransom demands were accompanied by carrier pigeons equipped to carry currency attached to their legs.

Hazelton tied a note to three of the birds asking that a message establishing his son's safety be sent. The supposed kidnapers refused. Queens police made plans to follow a fourth pigeon when it is released today.

### ROOSEVELT ASKS APPROPRIATION OF 20 MILLION

ADDRESSES SPECIAL MESSAGE  
TO EXTRAORDINARY SESSION  
OF LEGISLATURE

PROPOSES TO RAISE MONEY BY  
50 PER CENT INCREASE IN  
STATE INCOME TAXES

Albany, N. Y., Aug. 28.—(U.P.)—Gov. Franklin D. Roosevelt today asked for an appropriation of \$20,000,000 to aid in unemployment relief, in a special message to the extraordinary session of the state legislature.

The governor proposed to raise this money through an increase of 50 per cent in state income taxes in all brackets.

Roosevelt proposed measures by which workers on state and municipal contracts will labor only five days a week, excepting only the workers engaged in advisory or executive capacity.

Under the governor's recommendations, a temporary emergency relief commission consisting of three members would be set up.

Expenditure of the proposed \$20,000,000 would be under direction of the commission.

Five measures drafted in accordance with the governor's views were introduced simultaneously, to effectuate the program.

The Roosevelt program, placing the burden of relief on the 13,000,000 more fortunate residents of the state, contemplates no expectation of federal aid.

"It is idle for us to speculate upon actions which may be taken by the federal government," the governor said in his message to the legislature. Roosevelt stressed the fact that responsibility for relief rests squarely upon the state and community as a matter of social duty. To that end, he proposed launching a building program which will give work to idle thousands.

A provision of his program is that there shall be no cash dole.

Income taxes in all brackets above net income of \$2,500 would be affected by the rise, which is approximately 50 per cent over the present tax.

Many Roosevelt followers expected the governor's action today might be the guide for similar legislation throughout the country.

#### HERNDON, PANGBORN MAY NOT FLY ACROSS PACIFIC

Tokio, Japan, Aug. 28.—(U.P.)—Hugh Herndon, Jr., and Clyde Pangborn, American fliers, probably will be refused a permit to fly across the Pacific ocean despite intervention by the United States embassy, according to reports from government quarters tonight.

It is understood that Herndon and Pangborn are held to have forfeited their rights to a permit because they photographed Japanese fortifications while flying from Siberia to Tokio. U. S. Ambassador W. Cameron Forbes, now host of Col and Mrs. Charles A. Lindbergh, inquired into the status of the aviators' attempts to obtain a permit on advice from the state department at Washington.

Herndon and Pangborn flew from the United States to Siberia on a projected trip around the world, which they later abandoned. Arriving in Tokio they planned to seek a \$25,000 prize on a non-stop flight across the Pacific but were held by Japanese authorities and their plane temporarily detained. Later they were fined.

#### Forest Fire Near Choteau, Mont., Claims Four More Victims

Spokane, Wash., Aug. 28.—(U.P.)—The raging Waldron Creek forest fire west of Choteau, Mont., had claimed four more victims today. The bodies had not been definitely identified. They were believed to be four men missing from a Lewis and Clark National Forest crew.

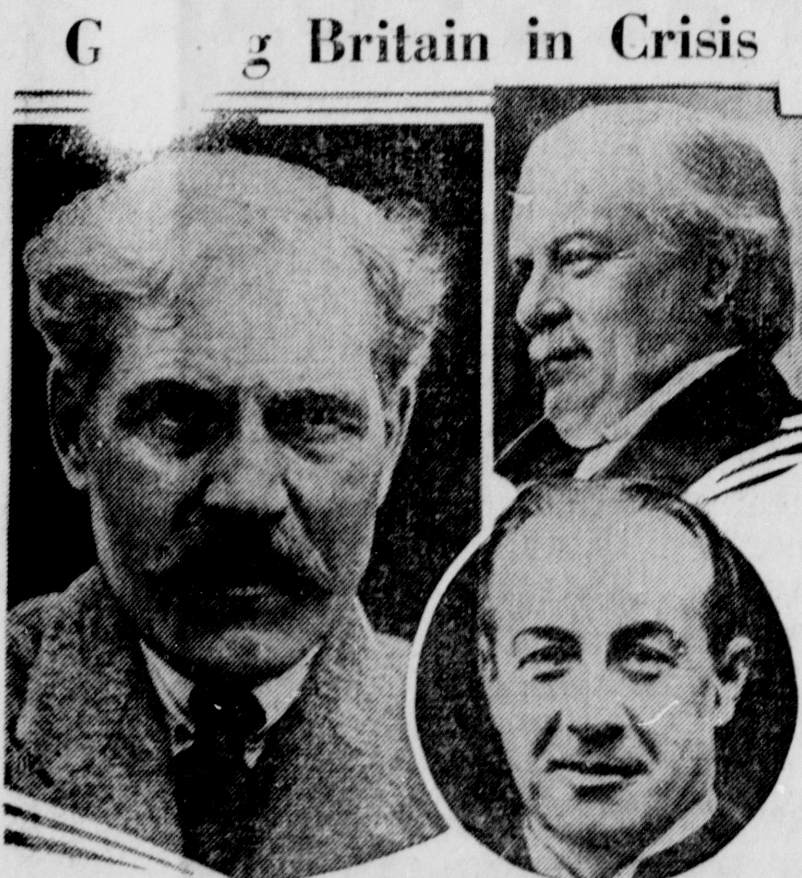

It was believed that the victims were Charles Allen, Pittsburgh, Pa.; Harry Gunnerson, Herb Novotny and Frank Williams, Great Falls, Mont. The bodies were being taken seven miles through wild forest country to Choteau.

#### DRIVE AGAINST BOOTLEGGERS

Racine, Wis., Aug. 28.—(U.P.)—A joint federal, city and county drive against Chicago bootleggers and gangsters was on today.

Four stills, with daily capacity of 1,000 gallons of liquor, and an alcohol depot had been raided and two men arrested as the result of a plea to police for protection by Allen Robinson, self-styled "independent bootlegger."

Robinson told police he had been threatened with death if he did not leave the city by gunmen he termed "Capone men."

The big three of Great Britain's newly formed national government are shown here. Ramsay MacDonald (left), leader of the Labor Party, who retains the premiership, shares with former Premier David Lloyd George (upper right) and Sir Stanley Baldwin (lower) the responsibility of guiding Great Britain during the financial crisis. Lloyd George, because of illness, is represented in the cabinet by Sir Herbert Samuel, acting Liberal Party leader.

MUTUAL FRIEND TRIES TO PATCH UP DEMPSEY MARITAL DIFFICULTIES

St. Louis, Mo., Aug. 28.—(U.P.)—"Uncle Charley" Baltzell, friend of Jack Dempsey and one time trainer of Bob Fitzsimmons, came here today to see if Estelle Taylor "won't make up with Jack."

He arranged an appointment with the motion picture actress, here for a vaudeville appearance, but declined to say what arguments he might use in his effort to end the marital rift, now in divorce proceedings stage.

Baltzell, 66 years old, a congenial white haired man, is the "good will" agent of the Frisco railroad. He will try to use some of the same philosophy in what he admitted was a "daring attempt" to patch up the Dempsey-Taylor domestic troubles.

Miss Taylor so far has declined here to talk about Dempsey, although she admitted "a soft spot in my heart for him." Asked for details of what troubles sent her husband to Reno for a divorce, and started her on similar action her only comment was "I don't want to hurt Jack by telling those things."

## SEEK TO SOLVE ALLEGED PLOT TO DESTROY 3 PORTS

BRUNSWICK, SAVANNAH AND JACKSONVILLE ARE AFFECTED

3 MEN ARRESTED ARE CHARGED WITH PARTICIPATING IN ALLEGED PLOT

Brunswick, Ga., Aug. 28.—(U.P.)—Chief of Police J. E. Register of Brunswick announced today arrest of three white men charged with participating in an alleged plot to destroy the ports of Brunswick, Savannah and Jacksonville, Fla., through which much of the nation's naval stores are shipped.

Motive for the alleged plot was not divulged by authorities who have conducted a searching inquiry for perpetrators since Aug. 16, when premature explosion of dynamite at the Atlantic coast line dock here failed to touch off gasoline sprinkled over the wharf. There were 100,000 barrels of naval stores piled on the docks, whose destruction by fire would have leveled the entire waterfront here.

The three men arrested were W. H. Smith, Barron Phillips and Stacey Prescott, Chief Register said. They were suspected as touching off the dynamite here, but were not believed leaders of the plot, Register said.

Register and railroad detectives are working on the theory that with the water-front in flames here, fire fighting aid would have been drawn from Savannah and Jacksonville, in which event a similar attempt at destruction would have been carried out in those unprotected cities.

It has been established, Register said, that just prior to the dynamiting here, 150 pounds of explosive were stolen from the Hercules Powder Co. of Brunswick.

## U.S.-FRENCH BANKERS OFFER HUGE CREDITS TO GREAT BRITAIN

LOANS FROM QUARTER TO HALF BILLION TO BE PARTICIPATED IN

FRENCH PROPOSAL TO BE IN FORM OF 1-YEAR BONDS OF BANK OF ENGLAND

New York, Aug. 28.—(U.P.)—Informal British government inquiries were met by assurances today that private American bankers were ready to participate in Franco-American credit of between \$250,000,000 and \$500,000,000, the largest negotiated privately in this country.

Wall Street emphasized that no credit had been arranged, and that with recent improvement of sterling exchange, Britain may decide credit is not needed.

Bankers were careful to reiterate that they had made no suggestions to the British government as to how to meet its financial emergency. The Laborite Daily Herald, of London, had charged that Wall Street had issued a "virtual ultimatum" demanding a ten per cent reduction in the British debt, which caused fall of the late labor government. This demand, it said, was to force improvement in the government's financial condition, thus making more secure any loan advanced.

The Herald's charge has been denied by Premier MacDonald and at Washington.

It was expected that the credit proposed for Britain would be announced today at the office of J. P. Morgan & Company. Morgan headed a syndicate which extended \$100,000,000 credit to Britain at the time of the return to the gold standard.

Paris, Aug. 28.—French and British bankers have reached an agreement

with Clement Moret, governor of the Bank of France, for French participation in new credits to England, officials of the ministry of finance informed the United Press today.

The agreement will be submitted by telephone to New York and London before being published tonight.

The French proposed to share with American bankers 80,000,000 pounds (\$392,800,000) in the form of one year bonds of the Bank of England.

Great Britain's acceptance was almost certain, since three representatives of the British treasury and two of the Bank of England participated in the conference.

## MUTUAL FRIEND TRIES TO PATCH UP DEMPSEY MARITAL DIFFICULTIES

St. Louis, Mo., Aug. 28.—(UP)—"Uncle Charley" Baltzell, friend of Jack Dempsey and one time trainer of Bob Fitzsimmons, came here today to see if Estelle Taylor "won't make up with Jack."

He arranged an appointment with the motion picture actress, here for a vaudeville appearance, but declined to say what arguments he might use in his effort to end the marital rift, now in divorce proceedings stage.

Baltzell, 66 years old, a congenial white haired man, is the "good will" agent of the Frisco railroad. He will try to use some of the same philosophy in what he admitted was a "daring attempt" to patch up the Dempsey-Taylor domestic troubles.

Miss Taylor so far has declined here to talk about Dempsey, although she admitted "a soft spot in my heart for him." Asked for details of what troubles sent her husband to Reno for a divorce, and started her on similar action her only comment was "I don't want to hurt Jack by telling those things."

## SEEK TO SOLVE ALLEGED PLOT TO DESTROY 3 PORTS

BRUNSWICK, SAVANNAH AND JACKSONVILLE ARE AFFECTED

3 MEN ARRESTED ARE CHARGED WITH PARTICIPATING IN ALLEGED PLOT

Brunswick, Ga., Aug. 28.—(UP)—Chief of Police J. E. Register of Brunswick announced today arrest of three white men charged with participating in an alleged plot to destroy the ports of Brunswick, Savannah and Jacksonville, Fla., through which much of the nation's naval stores are shipped.

Motive for the alleged plot was not divulged by authorities who have conducted a searching inquiry for perpetrators since Aug. 16, when premature explosion of dynamite at the Atlantic coast line dock here failed to touch off gasoline sprinkled over the wharf. There were 100,000 barrels of naval stores piled on the docks, whose destruction by fire would have leveled the entire waterfront here.

The three men arrested were W. H. Smith, Barron Phillips and Stacey Prescott, Chief Register said. They were suspected as touching off the dynamite here, but were not believed leaders of the plot, Register said.

Register and railroad detectives are working on the theory that with the water-front in flames here, fire fighting aid would have been drawn from Savannah and Jacksonville, in which event a similar attempt at destruction would have been carried out in those unprotected cities.

It has been established, Register said, that just prior to the dynamiting here, 150 pounds of explosive were stolen from the Hercules Powder Co. of Brunswick.

## U.S.-FRENCH BANKERS OFFER HUGE CREDITS TO GREAT BRITAIN

LOANS FROM QUARTER TO HALF BILLION TO BE PARTICIPATED IN

FRENCH PROPOSAL TO BE IN FORM OF 1-YEAR BONDS OF BANK OF ENGLAND

New York, Aug. 28.—(UP)—Informal British government inquiries were met by assurances today that private American bankers were ready to participate in Franco-American credit of between \$250,000,000 and \$500,000,000, the largest negotiated privately in this country.

Wall Street emphasized that no credit had been arranged, and that with recent improvement of sterling exchange, Britain may decide credit is not needed.

Bankers were careful to reiterate that they had made no suggestions to the British government as to how to meet its financial emergency. The Laborite Daily Herald, of London, had charged that Wall Street had issued a "virtual ultimatum" demanding a ten per cent reduction in the British debt, which caused fall of the late labor government. This demand, it said, was to force improvement in the government's financial condition, thus making more secure any loan advanced.

The Herald's charge has been denied by Premier MacDonald and at Washington.

It was expected that the credit proposed for Britain would be announced today at the office of J. P. Morgan & Company. Morgan headed a syndicate which extended \$100,000,000 credit to Britain at the time of the return to the gold standard.

Paris, Aug. 28.—French and British bankers have reached an agreement

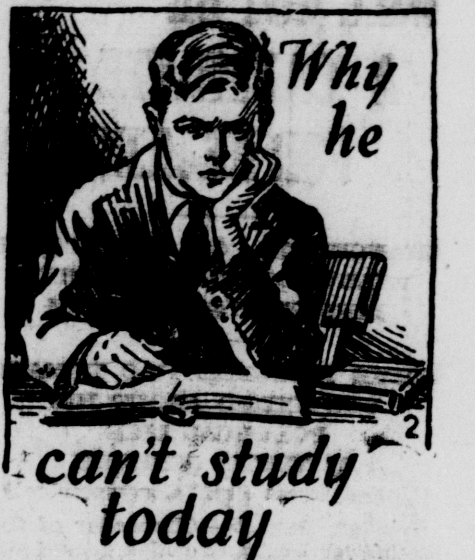

with Clement Moret, governor of the Bank of France, for French participation in new credits to England, officials of the ministry of finance informed the United Press today.

The agreement will be submitted by telephone to New York and London before being published tonight.

The French proposed to share with American bankers 80,000,000 pounds (\$392,800,000) in the form of one year bonds of the Bank of England.

Great Britain's acceptance was almost certain, since three representatives of the British treasury and two of the Bank of England participated in the conference.

## FIND BLOOD STAINED CLOTHES IN POWERS GARAGE

POLICE BELIEVE THEM TO BE  
LONG TO MISSING WIDOW AND  
CHILDREN OF PARK RIDGE, ILL.

POWERS, OF CLARKSBURG, W.  
VA., HELD IN CONNECTION WITH  
DISAPPEARANCE OF WOMAN

Clarksburg, W. Va., Aug. 28.—(U.P.)—Blood-stained clothing which police believe that of Mrs. Asta Eicher, wealthy Park Ridge, Ill., widow and her three children, who have been missing from their home, was found today in a garage owned by the wife of Harry F. Powers, alias Cornelius O. Pierson, alleged matrimonial agent.

Pierson, held in connection with the disappearance of the woman, admitted the clothing was that of the woman, police said. He denied the children's clothing was in the garage, according to police.

Police immediately went to the garage located in Quiet Dell, five miles from Clarksburg, to search for further clues. They reported blood-stains also were found on the floor of the garage, a small new structure.

Powers, real name of the man according to authorities, also had love letters in his possession, written from Olean, N. Y., and signed "Bessie." One of the letters was said to be 20 pages in length. The tone of all was "rather warm," police said.

Twenty or thirty photographs of women and a picture of a large mansion also were confiscated.

The discoveries were reported a short time after Powers broke his silence and discussed the disappearance of the woman and children.

Chicago, Aug. 28.—(U.P.)—An air of mystery clung persistently today about the disappearance of a Park Ridge widow and her children who still were sought throughout the nation despite the arrest in West Virginia of a matrimonial agency operator who was charged with murdering them.

The warrants were issued in Park Ridge, a Chicago suburb, against Cornelius O. Pierson, a middle aged Romeo of Clarksburg, W. Va.

The action was admitted by authorities here to be strange in that three serious crimes, manslaughter, kidnapping and murder were charged although there was no positive evidence that even one crime had been committed.

The widow, Mrs. Asta Buick Eicher, had been missing since last July. Her three children, Greata, 14, Harry, 12, and Anabel, 9, disappeared a few days after their mother last was seen in Park Ridge. Neighbors said that first the widow and then the children left with the man they believe was Pierson, or Pearson, as he is said to be variously known.

An inquiry disclosed that over a period of several months Pierson had written at least 54 ardent letters to the widow, that he proposed to her by letter and represented himself to her as a man of considerable income.

Reports from Clarksburg were that Pierson, under arrest, denied he ever had been a suitor of Mrs. Eicher and declared his visits to the Eicher home in July were for the purpose of helping the widow and her children "get started to Colorado."

When the disappearance of the widow and her children first was reported to Police Chief Harold Johnson in July he went to the Eicher home and found Pierson in the garage, packing the Eicher family belongings. Johnson told Pierson to return for further questioning the following day

Pierson, the chief said, did not return. Dr. J. E. Stephenson, police physician, analyzed the stains on the clothing found in the garage, and announced that they were human blood stains.

City police and Deputy Sheriff Harrison went to start digging in the vicinity of the garage this afternoon in search of the bodies of the missing woman and children.

The Camp Fire Girls at Lake Clearwater are learning much in swimming, hand, nature craft and first aid. Stunts have been put on each evening by the groups in the different cabins for the entertainment of the rest of the girls. The offerings so far have been clever and varied. The first program was put on Tuesday night by the girls in Annabel Paine's cabin. The well known poem "Lochinvar" was dramatized with the following girls acting: Orma Cochran, the bride; Genevieve Larson, the rejected suitor; Mardel Nelson the bride's father and Ethel Falconer, the mother; and Dorothy Finne and Helen Nyland the bridesmaids.

The next evening the group of which Elizabeth Patterson is counselor, put on a puppet show and a dancing act. The girls made the puppets heads of potatoes, which they carved and painted to resemble human faces. Dona Marie Tyrholm gave an acrobatic dance and Elaine Weisz tap danced. Elizabeth Patterson's cabin received the highest score in tent inspection yesterday. The following girls are in this cabin: Elaine Weisz, Harriet Hall, Beverly Swanson, Lois Dahl, Lucy May Williams, Mina Gould, Dona Tyrholm, and Elaine Twist.

## NATIONAL ORDER HONORS LOCAL FIRM

Hoenig Funeral Service to Represent  
Order of Golden Rule  
for Third Year

The funeral directing firm of Hector F. Hoenig has just been accepted to represent in Brainerd, a group of funeral directors, international in scope, known as the Order of the Golden Rule. The Order accepts its members after consideration of their ethical standing and their ability to render fine mortuary service at moderate costs.

Since the symbol of the Order has been given considerable publicity in Brainerd, it will undoubtedly be familiar to the majority of our readers. The Order of the Golden Rule lays great stress upon the point that service rendered by its members is available to all the people, regardless of financial considerations.

Affiliation with the Order of the Golden Rule is effected through the personal recommendation of a representative from national headquarters. Reinstatement is made in the same fashion, and membership is held on a yearly basis, and may be revoked at any time, should a member prove unworthy.

Everyone enjoyed the music very much and regretted that Mr. and Mrs. Spohn must continue their journey so soon. Being forced to travel because of ill health Mr. Spohn has built a house on wheels.

Coming recently from Indiana, their itinerary includes Minneapolis, the Dakotas, Idaho, Arizona, California, Texas and Florida.

Mr. and Mrs. Rasmussen of La Crosse, Wis., have been visiting her daughter, Mrs. Hans Thorson and other relatives and friends here.

We who live 40 or 50 miles from Pequot regret that the county fair cannot be more centrally located. Many are deterred by this one factor of distance from attending or exhibiting livestock, etc., at the fair.

## Flowers and Weeds

THE flower show of the Crow Wing County Garden and Flower society achieved a wonderful success this year in number and quality of exhibits and the general interest shown in all its phases. The court house ground floor, where the exhibition was held, was visited by many lovers of flowers, both from the city and the lake country.

The flower show is of supreme importance in the city, for wherever flowers are grown, there one finds them beautifying their surroundings. No one ever found a well kept garden associated with run down or slovenly appearing premises. The force of example is a strong one in any community. Find a tidy, nice little home, with fine lawns and a beautiful garden, and it is an example and an incentive to the rest of the home owners in the block to at least equal the other's appearance. There is no excuse for not having a garden of some kind. Even apartment dwellers may indulge in their love for flowers by having window boxes.

Every flower lover is antagonistic to weeds. He knows that if weeds are allowed to spring up and deposit their pollen and seeds it will damage his garden, lawn and neighborhood. The effect of the finest garden is marred if a nearby alley is luxuriant in sprawling, noxious weeds.

Weeds are an indication of carelessness, lack of civic pride, lack of interest in one's property. Weeds should be destroyed. The best way is to pull them out, root and branch, dry and burn them.

There is a state law requiring weeds to be cut and there are weed inspectors in town and country who should be active in the discharge of their duties. There are vacant lots in Brainerd harboring weeds. There are other places where weeds may be seen. The pest should be removed.

## Creating Better Business

A DRIVE for better business has been started by ex-Congressman Martin L. Davey, president of the Davey Tree Expert Co., Kent, Ohio.

It is argued that every indication, observed by all business leaders, points to a gradual business recovery, beginning at the opening of the selling season in September. Food lines, house furnishings, textiles, drugs, shoes, hardware and many other lines are already showing an upward tendency. Dealer shelves are depleted. If retailers are going to stay in business they will have to restock. This restocking will start activity in mills and factories. This in turn will employ labor. Labor with good wages increases consumer consumption.

Mr. Davey voices his belief that the depression, from which the country is now beginning slowly to emerge, was the result of economic causes such as over-production, and over-expansion, and over-buying. These economic causes have largely spent their force.

The American people are largely the victims of their own psychology. When prosperity is booming, most of them think that the sky is the limit. Then when the depression comes, they go to the other extreme and think that there is no bottom.

Mr. Davey asserts that every man who went through the trying period of 1921 knows that people generally were thinking and acting then exactly as they are now. Furthermore, every business observer knows that the period of 1921-22 was followed by the greatest era of prosperity that this or any other nation ever knew. Prosperity is a time for caution; depression a time for courage.

Periods of depression build up a great reserve of buying power, because nearly everyone puts off buying as long as he can, not only the things he wants, but some of the things that he really needs.

## Shorter Duck Season

PRESIDENT HOOVER's proclamation has shortened the duck season to one month and a further benefit is to be realized in that the hunting seasons in the northern and southern areas will be equalized as a result.

The President's proclamation calls for the opening of the season October 1 and closes it October 31, in the northern area, which includes Minnesota. The new regulations apply to ducks, geese, brant, and coots throughout the United States and Alaska. Under the old regulations the season averaged about three months.

Last month State Game and Fish Commissioner William D. Stewart of Minnesota attended the conference of game and fish officials from Montana, North and South Dakota, Minnesota and Manitoba. The conference recommended a 30-day season. The results of their deliberation were communicated to Canadian game and fish commissioners and the latter are striving to secure a similar proclamation from the Governor General of Canada.

It is all a noteworthy step in duck conservation and propagation and the first time since 1918 that seasons have been equalized in north and south areas. Previously the southern area, profiting from better weather, had a full season while in the north the shooting generally ran around 30 days.

## Retires from Newspaper Business

THE Brainerd Tribune, in an editorial this week, refers to the retirement of F. W. Wieland, publisher of the Brainerd Dispatch.

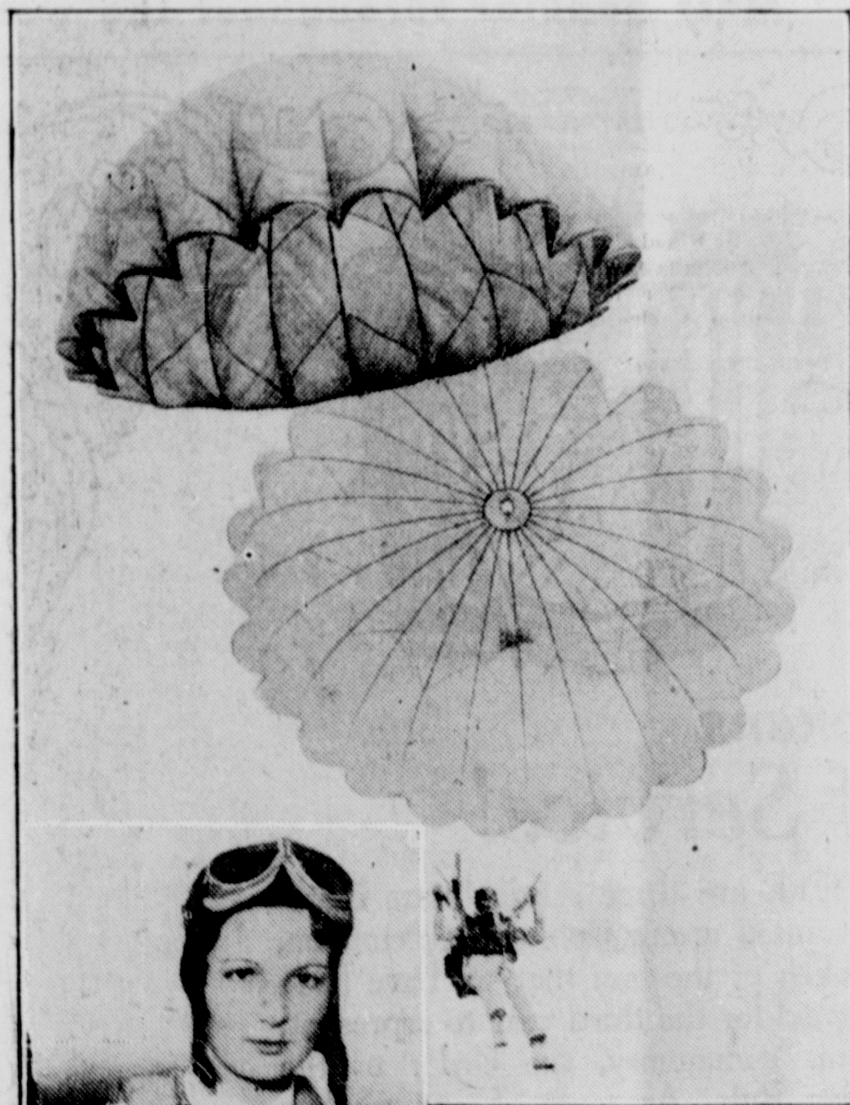

"Next Tuesday our contemporary, Fred Wieland, will turn over the Brainerd Dispatch to its new owners and retire from the newspaper business. We shall miss him in a business way for he has always been a friendly competitor and a square shooter and used his influence for the good of the community. He had the foresight and courage to establish a daily paper in Brainerd, when such an enterprise was more of a gamble than an investment, and he has handled the business in a way that has not only made it one of the best papers published in any city of this size but, also, in a way to add to the prestige of Brainerd. While we are sorry to have him retire from the newspaper business we are glad that he is to continue to make Brainerd his home and to know that we will have his help and co-operation in all things which will be of advantage to Brainerd."

DOBBIN is coming into his own. Two New Yorkers were arrested for speeding their mounts along the bridle paths of Hempstead state park.

## WOMAN'S WORK IS NEVER DONE

## Girl to Introduce Twin Chute Leap at State Fair

**Almeda Babcock to Entertain Visitors With Aerial Performance.**

Grace and beauty will be combined with the spectacular when Almeda Babcock, "America's parachute queen," performs her thrilling twin chute descent at the Minnesota State Fair and Northwest Livestock Show, Sept. 5 to 12.

Originator of the feat, and the only girl performing it, she fearlessly steps off her plane into 2,500 feet of vacancy, falls free sev-

eral hundred feet, then pulls the rip-cord which opens the great white "sky hooks," and glides to earth in a veritable silken bouquet.

It was not until after her husband, George Babcock, fell to his death in Lake Minnetonka through the failure of one of his multiple chutes to open in August of last year that the intrepid young woman attempted her first exhibition jump. That was at Richmond, Va., last October, and it wasn't for fun, but a matter of expediency. Since that time, she has jumped 144 times, and about 60 of these have been with the twin chutes, a feat she conceived a few months after her first leap.

A stately brunette, five feet, six inches tall and weighing 122 pounds, she celebrated her 21st birthday June 21 of this year by a twin chute jump at night while spotlighted played upon her at Milwaukee.

Other aerial attractions at the State Fair this year will be a close-up performance of the Auto-giro or windmill type of plane, which will take off at a sharp angle immediately in front of the Grandstand, maneuver slowly, hover in mid-air, attain surprising cruising speed and descend vertically with the grace of a parachute, and an old-fashioned balloon ascension and parachute act.

## Great Work

The director of the Child Research Center of Washington finds 2,124 ways in which children annoy their parents. Now if some well-disposed person will find out how many ways some of these research bugs annoy everybody, something worth while may be accomplished.

## Surcoure for Singers

"Is there any truth in the statement," questions a man with a cantankerous chest, "that if a fellow sings at the top of his voice for an hour a day, he'll be entirely relieved from chest troubles in his old age?" "Absolutely," confirms the New York Post. "He probably won't even be troubled by old age."

# SENATORS AND YANKEES START DRIVES FOR SECOND PLACE

## BOTH TEAMS ARE BACK FROM THEIR WESTERN INVASION

### SENATORS STAND GOOD CHANCE OF INCREASING THEIR LEAD

#### ST. LOUIS CARDS ARE ALREADY TEN FULL GAMES OUT IN FRONT

By L. S. CAMERON  
United Press Sports Editor

New York, Aug. 28.—Back from their final western invasion, the Washington Senators and the New York Yankees today began drives which each hope will earn second place in the final American League standings.

The Senators, one-half game ahead of the third-place Yankees, stand a good chance of increasing that advantage during the next two days, for while they are playing the lowly Boston Red Sox the Yankees will be meeting the formidable Philadelphia Athletics. This alignment will be reversed on Sunday, however.

From that point on the schedule gives little or no advantage to either team, both having approximately the same number of games to play with the other clubs in the league.

The St. Louis Cardinals, already ten full games out in front of the National parade, probably will be one-half notch farther in the lead by nightfall. The Cards meet the Pittsburgh Pirates in the only scheduled National League game.

Chicago's Cubs missed a chance to pick up a game on the idle second place New York Giants yesterday by dividing a double-header with the Pirates. Four hit pitching by Glen Spencer and Thevenow's triple with two men on was largely responsible for the Pirates' 3 to 2 victory in the opener.

The Cubs won the second game 11 to 4 by an eight-run rally in the 8th. Pinkey Whitney's 8th inning home run gave the Phillies a 6 to 5 victory over Cincinnati in the only other National League game of the day.

Wes Ferrell, whose work has been spotty ever since he pitched a no-hit game early in the season, returned to form to pitch the Cleveland Indians to an 11 to 1 triumph over the St. Louis Browns. Ferrell allowed but four hits.

The Detroit Tigers pounded five Chicago pitchers for 13 hits and an 8 to 4 victory in the only other American League game. Vic Borrell pitched for the Tigers, and though touched for 11 hits, was stingy when hits meant runs.

## 33 Women Swimmers Entered in Canadian Swimming Marathon

Toronto, Ont., Aug. 28.—(U.P.)—Thirty-three of the finest women swimmers of the United States and Canada today were to plunge into the waters of Lake Ontario in the annual Canadian national exhibition swimming marathon.

The winner of the ten-mile race will be awarded a cash prize of \$5,000 and the title of world's champion. Second money is \$2,500.

This year, for the first time, all of the contestants will wear bathing suits. Indications were that the temperature of the waters will be around 69 degrees, thus making it unnecessary for the swimmers to cover themselves with grease.

## BILL HERMAN IN LINEUP OF CUBS

Chicago, Aug. 28.—(U.P.)—Billy Herman, Louisville second baseman, has been ordered to report to the Chicago Cubs tomorrow and will be placed in the line-up immediately, according to word received here today from Manager Rogers Hornsby.

Herman, who is said to have cost the Cubs \$50,000, was to have reported at the close of the American Association season, but the Cubs agreed to ship infielder Bill Jurgens to the Colonels for the rest of the season in order to get Herman at once. Jurgens will return to the Cubs at the end of the American Association season. Herman is 22 and has been batting around .350 all season.

Dingiswayo, Chako, Dingana and Cetawayo were full-blooded Zulu chiefs who, by the strategic administration of their forces, their bravery and undoubted capacity for leadership, prevented for a long time the settlement by the Dutch and later the English of the territory of Zululand, now a part of the Union of South Africa. Cetawayo, particularly, caused grave concern to the British government, defeating a large contingent of British troops.

## KIDNAPED BROKER OF NEW YORK IS HURLED FROM CAR

### CHARLES H. ROSENTHAL, HEIR TO LARGE FORTUNE, RETURNS TO HIS HOME

### FAMILY CONDUCTED NEGOTIATIONS THROUGH PERSONAL COLUMNS OF PAPER

New York, Aug. 28.—(U.P.)—Charles H. Rosenthal, broker heir to a large fortune who had been reported kidnapped for ransom, said he was thrown from an automobile in the Bronx today.

He hailed a taxicab and went to the Morrisania police station where he was detained while Nassau county authorities were summoned to question him. He was returned later to his home at Lawrence, L. I.

His family had reported him kidnapped and had conducted negotiations with the supposed extortioners through the personal columns of a morning paper.

A notice today read: "Ed acted complete good faith. Impossible to raise ante above fifty and guarantees to act absolutely alone in the matter."

It was assumed "Ed" referred to Edward Nathan, attorney, who first received the letter demanding \$10,000 for Rosenthal's release, and "fifty" to \$50,000.

Nathan was absent from his office late yesterday working on the case. It was said there that Mrs. Rosenthal was "hopeful" her son would soon be returned to his home.

## SUBJECT OF PAY COMES UP SOON WITH COL. RUPPERT

### TY COPP DECLARES HE WILL NOT MANAGE BROOKLYN ROBINS IN 1932

### SPORT WORLD SADDENED BY NEWS THAT SHIRES HAS STOPPED TALKING

By HENRY McLEMORE  
(United Press Staff Correspondent)

New York, Aug. 28.—In a few weeks Babe Ruth will name his annual all-star team and the sports page readers will be treated to another sterling example of this absurd modesty on the part of our better heroes. Ruth, unless he springs the greatest upset of all time, will name his club of the year without even so much as mentioning George Herman Ruth. And you know and Ruth knows that the Babe belongs out there in right field on any man's all-anything team.

Modesty such as exhibited by Cochrane and soon to be exhibited by Ruth becomes downright absurd when you remember how the boys behave when talking contracts and salaries with the business office. They all become Dizzy Deans and Art Shires when the subject of pay comes up.

You rest assured that Ruth will shed all pretense of modesty when he walks in there to talk with Colonel Jake Ruppert about a renewal of that \$30,000 contract. And that he would consider it pretty low form of humor if the colonel should remind him that

Joe Glutz, the peerless Glutz, who Ruth picked as the greatest right-fielder in baseball, was making a paltry \$17,000 a year salary.

Ty Cobb says he won't manage the Brooklyn Robins in 1932. That narrows the field to Bucky Harris and 237 other guys.

We for one were saddened by the news that Art (What-a-man, all-talkie, wired for sound) Shires had become a shy, shrinking violet, and that Jerome "Dizzy" Dean planned to quit selling the world, including the Scandinavian, just what a great little ball player this guy Dean was.

For as hard on the ears was the "ragadoo" of the Messrs. Shires and Dean, their vainglorious utterances never saw the day when they were as boring as the modest, self-deprecating statements by many of our brighter stars.

What we mean is, we'd a whole lot rather read of Dean's insistence that his fast ball, even on off days, makes Lefty Grove's smoker look like something thrown by a fat soprano, than where Mickey Cochrane says Charlie Berry of the Red Sox is the greatest catcher in the American League. There is at least an outside chance that Dizzy means what he says. But when Cochrane rates Berry as the best backstop in the league, you are positive that Mickey said it knowing full well that he could put an anvil under each arm and still show young Mister Berry a few things.

## KANSAS CITY IN SECOND PLACE

### WINS ITS GAME WHILE INDIANAPOLIS WAS BEING DEFEATED

(By United Press)

Kansas City was up in second place in the American association today after winning its game while Indianapolis was being defeated.

The Indians, who had been tied with Kansas City for second position honors, went down to third place when they lost to the league leading Saints, 5 to 2. Anderson's fourteenth home run of the season accounted for three runs and gave St. Paul the game in the seventh inning.

Murphy held the Indians to six hits in pitching his seventh consecutive victory.

Kansas City defeated Toledo 4 to 2.

Columbus got a second-inning start on its 0 to 6 defeat over Milwaukee when Hinkle's fly bounced out of Gullie's glove and into the bleachers, to give Hinkle a homer and his team three runs.

Minneapolis won its last game with Louisville, 12 to 3. Three of the Miller's runs were accounted for by Griffin's two home runs.

### Meanings of "Gentile"

The word "Gentile" actually means an alien, an outsider. It was applied by the Jews to any one not of the Jewish faith. The early Christians applied the term to one either Jewish or non-Christian. The Romans applied it as a civil distinction to all who were not Roman citizens.

## DEFENDING Champion John

H. Doeg, Jr., will not be the speculative favorite to retain his National Singles tennis title next week when the annual outdoor court classic is to be played at Forest Hills, L. I. A few weeks ago, Ellsworth Vines, a comer from California, defeated Doeg quite decisively at Seabright. Of course, the champion's many admirers can maintain justly that Johnny was off his game because of too long a rest. Doeg did not try for the Davis Cup team this year because he was engrossed in getting a start in business and he did not intend to defend his title for the same reason. But the lure of the court was such that Doeg finally decided to enter championship lists again. That Vines defeated and one other setback seemed inauspicious, yet those very re-

verses may spur Doeg on to supreme efforts next week. Francis X. Shields, finalist with Doeg last year, is again a big factor in the coming championships. On form this summer, Frank seems considerably stronger than the champion. George M. Lott, Jr., recent Meadowbrook Challenge Cup winner, may prevail if he can control his spirited temper.

Of course, with memory of that triumph over Doeg still fresh, Vines looks potent, too, despite his liability to attacks of stomach trouble. Indeed, many are predicting that this 20-year-old University of Southern California student will be "the successor to Bill Tilden"—greatest and most colorful of all America's tennis masters. Last year, this 6-foot-1, 150-pound strapping was a victorious sensation in Seabright's early rounds but "Sid" Wood

crushed him in the final and some were convinced Ellsworth was "just another flash-in-the-pan." This was confirmed, it appeared, when Vines suffered other defeats; but he got back on his game last Winter and Spring.

Right now other competitors in the Nationals, notably "Cliff" Sutter, Berkeley Bell, and Junior Coen rate Vines as the most dangerous sort of an opponent. More than one expert is sure that when the Pasadena boy puts on about twenty more pounds of well-muscled weight that his strokes should be as sizzling as those of Tilden when the latter was, or is, in his most torrid form. It's about time, our wealth of young court talent produced someone resembling "Big Bill" and also, of course, a cupot qualified to lift the Davis Cup, almost won by England (strike us pink!) this year. # SENATORS AND YANKEES START DRIVES FOR SECOND PLACE

## BOTH TEAMS ARE BACK FROM THEIR WESTERN INVASION

SENATORS STAND GOOD CHANCE OF INCREASING THEIR LEAD

ST. LOUIS CARDS ARE ALREADY TEN FULL GAMES OUT IN FRONT

By L. S. CAMERON  
(United Press Sports Editor)

New York, Aug. 28.—Back from their final western invasion, the Washington Senators and the New York Yankees today began drives which each hope will earn second place in the final American League standings.

The Senators, one-half game ahead of the third-place Yankees, stand a good chance of increasing that advantage during the next two days, for while they are playing the lowly Boston Red Sox the Yankees will be meeting the formidable Philadelphia Athletics. This alignment will be reversed on Sunday, however.

From that point on the schedule gives little or no advantage to either team, both having approximately the same number of games to play with the other clubs in the league.

The St. Louis Cardinals, already ten full games out in front of the National parade, probably will be one-half notch farther in the lead by nightfall. The Cards meet the Pittsburgh Pirates in the only scheduled National League game.

Chicago's Cubs missed a chance to pick up a game on the idle second place New York Giants yesterday by dividing a double-header with the Pirates. Four hit pitching by Glen Spencer and Thevenow's triple with two men on was largely responsible for the Pirates' 3 to 2 victory in the opener.

The Cubs won the second game 11 to 4 by an eight-run rally in the 8th. Pinky Whitney's 8th inning home run gave the Phils a 6 to 5 victory over Cincinnati in the only other National League game of the day.

Wes Ferrell, whose work has been spotty ever since he pitched a no-hit game early in the season, returned to form to pitch the Cleveland Indians to an 11 to 1 triumph over the St. Louis Browns. Ferrell allowed but four hits.

The Detroit Tigers pounded five Chicago pitchers for 13 hits and an 8 to 4 victory, in the only other American League game. Vic Sorrell pitched for the Tigers, and though touched for 11 hits, was stingy when hits meant runs.

And you know and Ruth knows that the Babe belongs out there in right field on any man's all-anything team.

Modesty such as exhibited by Cochran and soon to be exhibited by Ruth becomes downright absurd when you remember how the boys behave when talking contracts and salaries with the business office. They all become Dizzy Deans and Art Shires when the subject of pay comes up.

You rest assured that Ruth will shed all pretense of modesty when he walks in there to talk with Colonel Jake Ruppert about a renewal of that \$80,000 contract. And that he would consider it pretty low form of humor if the colonel should remind him that

Joe Glutz, the peerless Glutz, who Ruth picked as the greatest right-fielder in baseball, was making a paltry \$17,000 a year salary.

Ty Cobb says he won't manage the Brooklyn Robins in 1932. That narrows the field to Bucky Harris and 237 other guys.

We for one were saddened by the news that Art (What-a-man, all-talker, wired for sound) Shires had become a shy, shrinking violet, and that Jerome "Dizzy" Dean planned to quit jelling the world, including the Scandinavians, just what a great little ball player this guy Dean was.

For as hard on the ears was the braggadoogie of the Messrs. Shires and Dean, their vainglorious utterances never saw the day when they were as boring as the modest, self-deprecating statements by many of our brighter stars.

What we mean is, we'd a whole lot rather read of Dean's insistence that his last ball even on off days, makes Lefty Grove's smoker look like something thrown by a fat soprano, than where Mickey Cochrane says Charlie Berry of the Red Sox is the greatest catcher in the American League. There is at least an outside chance that Dizzy means what he says. But when Cochran rates Berry as the best backstop in the league, you are positive that Mickey said it knowing full well that he could put an anvil under each arm and still show young Mister Berry a few things.

## KANSAS CITY IN SECOND PLACE

WINS ITS GAME WHILE INDIANAPOLIS WAS BEING DEFEATED

(By United Press)

Kansas City was up in second place in the American association today after winning its game while Indianapolis was being defeated.

The Indians, who had been tied with Kansas City for second position honors, went down to third place when they lost to the league leading Saints, 5 to 2. Anderson's fourteenth home run of the season accounted for three runs and gave St. Paul the game in the seventh inning.

Murphy held the Indians to six hits in pitching his seventh consecutive victory.

Kansas City defeated Toledo 4 to 2. Columbus got a second-inning start on its 9 to 6 defeat over Milwaukee when Hinkle's fly bounced out of Gullie's glove and into the bleachers, to give Hinkle a homer and his team three runs.

Minneapolis won its last game with Louisville, 12 to 3. Three of the Millers' runs were accounted for by Griffith's two home runs.

## Meanings of "Gentile"

The word "Gentile" actually means an alien, an outsider. It was applied by the Jews to any one not of the Jewish faith. The early Christians applied the term to one either Jewish or non-Christian. The Romans applied it as a civil distinction to all who were not Roman citizens.

## After Tilden's Old Crown

By HARDIN BURNLEY

DEFENDING Champion John H. Doeg, Jr., will not be the speculative favorite to retain his National Singles tennis title next week when the annual outdoor court classic is to be played at Forest Hills, L. I. A few weeks ago, Ellsworth Vines, a comer from California, defeated Doeg quite decisively at Seabright. Of course, the champion's many admirers can maintain justly that Johnny was off his game because of too long a rest. Doeg did not try for the Davis Cup team this year because he was engrossed in getting a start in business and he did not intend to defend his title for the same reason. But the lure of the court was such that Doeg finally decided to enter championship lists again. That Vines defeated and one other setback seemed inconspicuous, yet those very re-

verses may spur Doeg on to supreme efforts next week. Francis X. Shields, finalist with Doeg last year, is again a big factor in the coming championships. On form this Summer, Frank seems considerably stronger than the champion. George M. Lott, Jr., recent Meadowbrook Challenge Cup winner, may prevail if he can control his spirited temper. Of course, with memory of that triumph over Doeg still fresh, Johnny looks potent, too, despite his liability to attacks of stomach trouble. Indeed, many are predicting that this 20-year-old University of Southern California student will be "the successor to Bill Tilden"—greatest and most colorful of all America's tennis masters. Last year, this 6-foot-1, 150-pound strapping was a victorious sensation in Seabright's early rounds but "Sid" Wood-

crushed him in the final and some were convinced Ellsworth was "just another flash-in-the-pan." This was confirmed, it appeared, when Vines suffered other defeats; but he got back on his game last Winter and Spring.

Right now other competitors in the Nationals, notably "Cliff" Sutter, Berkeley Bell, and Junior Coen rate Vines as the most dangerous sort of an opponent. More than one expert is sure that when the Pasadena boy puts on about twenty more pounds of well-muscled weight that his strokes should be as sizzling as those of Tilden when the latter was, or is, in his most terrific form. It's about time, our wealth of young court talent produced someone resembling "Big Bill" and also, of course, a quartet qualified to lift the Davis Cup, almost won by England (strike us pink!) this year.

### 3 MOVING PICTURE HOUSES IN CHICAGO DAMAGED BY BOMBS

POLICE SAY THEY WERE HURLED TO DESTROY VALUABLE SOUND APPARATUS

#### BITTER CONTROVERSY RAGES BETWEEN THEATER OWNERS AND OPERATORS

Chicago, Aug. 23.—(U.P.)—Three moving picture houses involved in the bitter controversy between theater owners and the moving picture operators' union were damaged today by bombs which police said apparently were hurled in an effort to destroy valuable sound reproduction apparatus.

A total of about \$5,500 damage was caused to the three theaters, the Ridge of the north side, and the Olympic and Ray on the south side.

Windows were rocked out of buildings in the vicinities of all three houses. Elaine Katzenburg, 10, and her sister, Roslyn, 6, were injured by flying glass. They were asleep in their home near the Ridge theater.

Harold Lasker, owner of the Ridge, blamed members of the operators' union who were forced out of their \$90 to \$175 a week jobs when 105 theater owners refused to meet a union demand to hire two operators for every theater. Theaters all have been operated since last Sunday night with non-union operators, imported by airplane from New York, manning the projectors.

Although the Ridge theater is miles away from the other two which were bombed, all three explosions occurred within 18 minutes, the first coming at 1 A. M., the second at 1:04 and the third at 1:18. All three bombs were hurled into the rear entrances of the theaters, exploding near the expensive sound equipment. The entire rear of the Ridge theater was wrecked. Damage there was estimated at \$5,000.

At the time of the explosions, the imported New York operators were meeting at the Auditorium Hotel to receive warnings to be careful "both on and off the job."

The trouble between the theater owners and the union began several weeks ago, shortly after Thomas E. Maloy, business manager of the union, was indicted on charges of conspiracy. Maloy was accused of operating a racket. Some of the charges against him were made by an operator who later was mysteriously shot to death.

The theater owners protested against a union demand that they hire two operators for every theater. When efforts to compromise failed, the theaters were closed. After the houses were reopened, the owners announced they had abandoned all effort to compromise, had permanently locked out the union, and would continue operating on an "open shop" plan.

"I knew trouble was coming the minute I heard that Maloy and other officials of the union had left for New York," declared Assistant States Attorney Charles E. Lounsbury, who has been working on the controversy.

Acting on Lounsbury's orders, police arrested Joseph Kremer, 40, a few hours after the bombings. Kremer is steward of the operators' union. Laske told Lounsbury Kremer had threatened him. Kremer denied any knowledge of the attacks.

Lounsbury said he would ask Mayor Anton J. Cermak and acting Police Commissioner John A. Alcock to order extra heavy protection today for the imported operators and movie houses.

### HOURLASS IS SYMBOL OF MODERN ROASTING METHOD

Accuracy Is Assured in Controlled Roasting—Hills Bros.' Patented Process for Roasting Coffee

Better than anything else, an hour-glass symbolizes the exactness of Hills Bros.' patented, Controlled Roasting process. For as the accuracy of the hour-glass depends upon an even, continuous flow . . . a little at a time . . . so the wonderful, unvarying flavor of Hills Bros. Coffee is produced by this patented process that roasts evenly, continuously . . . a little at a time.

This is very different from ordinary, bulk-roasting methods. The results are very different too. You can judge them yourself, if you compare Hills Bros. with other coffees.

Hills Bros. has a finer, uniform flavor. Roasting it a little at a time makes this possible. For every berry receives the right amount of heat. None is underdone, none is overdone. The same delightful flavor is assured in every pound. Bulk-roasted coffee can't guarantee these things. No wonder Hills Bros. Coffee has and holds so many friends!

Hills Bros. Coffee comes in vacuum cans that keep it fresh. Air, which destroys the flavor of coffee, is removed and kept out of these cans. Even ordinary, "air-tight" cans won't keep coffee fresh. Ask for Hills Bros. Coffee by name, and look for the Arab trade-mark on the can.

Southampton, Eng., Aug. 23.—(U.P.)—Henry L. Stimson, United States secretary of state who came to Europe on a vacation and remained to engage in historical conferences on world economic conditions, sailed for home today aboard the Leviathan.

"I am returning to the United States with a spirit of greatest hope, convinced that we all are better equipped for the work we must face," Stimson said.

The secretary was accompanied by Mrs. Stimson.

### PORTUGUESE REBELS SCATTER, DEFEATED BY LOYAL TROOPS

LISBON SURVEYS DAMAGE DONE BY MACHINE GUNS, ARTILLERY, ETC.

LATEST ESTIMATES ARE 50 DEAD, 300 INJURED AND 500 ARRESTED

Lisbon, Aug. 23.—(U.P.)—Portuguese rebels appeared to be scattered and defeated today as Lisbon surveyed the damage done by machine guns, artillery, infantry, and bombing planes in the brief, but determined uprising.

Latest estimates were 50 killed, 300 injured and 500 arrested.

Property damage was extensive. It was expected to exceed \$250,000. The military regained strict control of the capital. Reports from other cities indicated the revolt did not spread, although there were numerous arrests at Oporto.

Among the dead were four women killed by an aerial bomb. Several children were killed. Residents generally retreated to their homes when firing began, although many were caught in the rain of bullets.

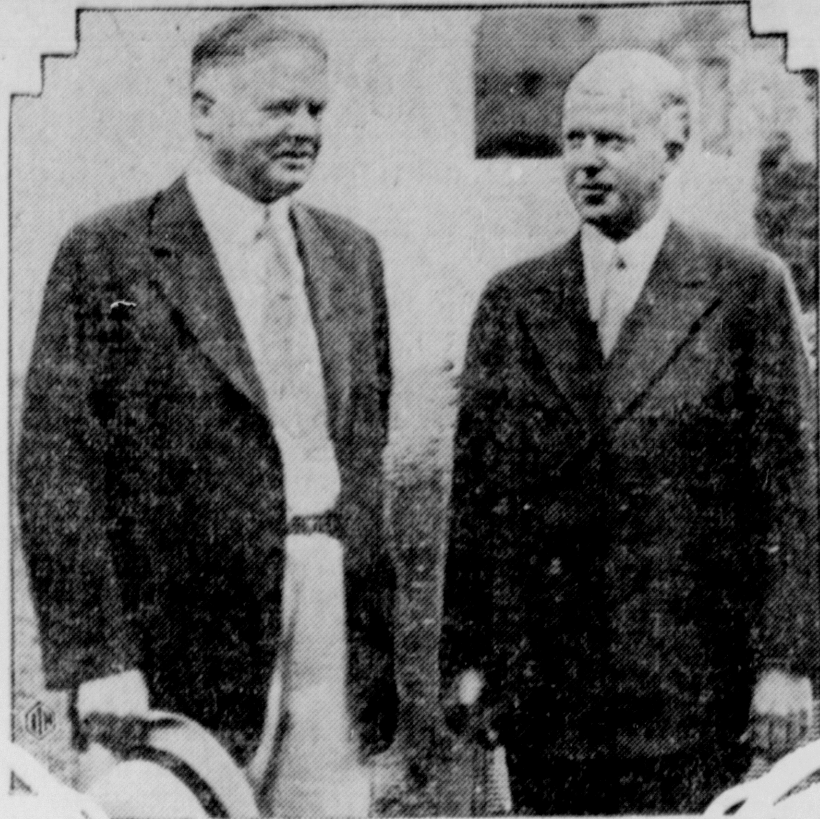

The main battle lasted almost nine hours and included bombardments from artillery, grenades and bombs. There was violent hand to hand fighting between rebels and members of the republican guard.

Sarmiento Besires, former major in the army flying corps who made a trans-Atlantic flight to Brazil in 1927, was arrested as leader of the revolt at the Alverca airfield. Many of his fellow rebels escaped to Spain by airplane.

A number of officers surrendered at the airfield.

The government reported that the last well-armed band of rebels was retreating from the capital towards Caldas de Rinha, about 60 miles to the north. They were pursued by infantry, machine gunners and republican guards.

### LIQUOR TRUCK DRIVER NEAR DEATH

2 MEN SHOOT ST. CHARLES MAN AFTER UNSUCCESSFUL HIJACK ATTEMPT

St. Charles, Wis., Aug. 23.—(U.P.)—Russell Mathison, 21, of St. Charles, Minn., driver of a liquor truck, lay near death in St. Michael's hospital today as officials sought two men who shot him during an unsuccessful hijack attempt.

Mathison's truck, containing 400 gallon tins of alcohol, was confiscated by Sheriff John Kubisiak.

The two men overhauled Mathison in southwestern Portage county.

The truck driver tried to flee and was shot through the back. One bullet penetrated his lung and physicians held little hope for his recovery. Mathison could give few details of the affair because of his condition. He told the sheriff, however, that he was taking the truck from Green Bay to Winona, Minn., and that he didn't know it contained liquor.

BOTH, LOYAL CITIZENS

Mr. Anderson Resigns as Oil Inspector to Devote Full Time to United Workmen

Brainerd loses shortly one of its most loyal families but this city will continue to be home to Mr. and Mrs. Andrew Anderson, 1504 East Oak street, even though they move to Minneapolis.

Mr. Anderson, native Brainerdite and so is his wife (nee Emma Beck), will have his headquarters in St. Paul, devoting his entire time to field work for the Ancient Order of United Workmen. He will take over his new work as soon as a successor is named to his position of deputy oil inspector for the Brainerd district which he has filled for the past ten years.

Competitive examination for the position will be held September 14 at the county court house.

Mr. Anderson was born in Brainerd 47 years and six months ago at 1324 East Oak street which home his father, Henry Anderson still owns but is now renting and living with his son, Martin Anderson, 419 North Third St.

Mr. and Mrs. Anderson have been active in civic work, lodge and society affiliations. Mr. Anderson has been a member of the Masonic lodge for 22 years being affiliated with Chapter and Knights Templar, a member of the United Workmen for 26 years, once city alderman from the Fourth Ward for eight years, former manager of the Brainerd Municipal Band 20 years, a member of the Brainerd Board of Education during the unexpired term of John Holvick and chairman of the Republican party of Crow Wing county for two years. Mrs. Anderson has been active in Eastern Star work, Degree of Honor and Workmen.

**LAKES ASSOCIATION**

TO MEET SEPT. 14

Water Levels Group Called to Annual Meeting Here by President Frank Heywood

LAKES GREATLY BENEFITED

Fine Water Stage Maintained in Brainerd Lake Region; Will Carry on Work

Encouraged by the success of its first year's endeavors but determined not to rest on their laurels, members of the Minnesota Lake Levels Association will meet at its annual meeting Sept. 14 at Brainerd and pledge their wholehearted support for furtherance of the aims of the association in the preservation of Minnesota's lakes.

Frank Heywood, Gull Lake and Minneapolis, president of the association, announced the meeting in a visit to the Brainerd Dispatch office at noon today. He said the meeting will be called at 1 p. m. in the Chamber of Commerce rooms. Col. W. T. Collison, Minneapolis, a staunch supporter who has worked diligently for the success of the association's ambitions will be present to make a report as to work conducted by him as vice president of the association.

Congressman Harold Knutson who carried the fight of the north to Washington for the establishment of minimum water levels which resulted in amended regulations by the War Department will also be present.

The effect of the establishment of minimum water levels is particularly noticeable in the Brainerd Lake Region. Without such legislation the lakes would have been in the lowered water stage of previous years. This year the Gull Lake, Pine River and Big Sandy chain have levels higher than in years to the general satisfaction of all people concerned. The lakes of Pokegama, Winnibegishish and Leech have not fared well. These lakes are at a low water mark, due to lack of precipitation.

Invitations urging representation at the meeting are to be sent to Izak Walton leagues, the 10,000 Lakes Association and the Minnesota State Conservation Commission, and other organizations.

**In Tropical Zone**

The climate of the Panama Canal zone is like most tropical climates—hot most of the year, with a very rainy season in what corresponds to our winter.

## KIDDIES PRAY FOR SUN ON FUN DAY

"Whoopie Day" Plans Complete; 2,000 Boys and Girls to Enjoy Events Tomorrow at Lum

All kiddies in Brainerd bought the weatherman today to be kind to them, Saturday afternoon.

They want warm clear skies so they can enjoy the afternoon and all of its fun making perfectly.

The occasion will be the second annual "Whoopie Day" celebration and close to 2,000 children will be on hand

(if the weather is right) to participate in the fun planned.

All boys and girls will invade Lum Park equipped with registration tickets entitling them to good things to eat.

The Brainerd Municipal Band will be present to lead the dressup parade which will start events at 1:15 p. m.

A busy afternoon of sports and novelty events is planned in detail. These will include two features, a blueberry pie eating contest and a greased pig chase. Just in case it rains, the picnic and sports will be held Sunday afternoon at the park.

Clark will be seen again at the Palace tonight and at matinee and evening performances Saturday.

**CROWDS MARVEL AS MAN FED QUEER EATS**

While last evening's Palace theatre audience marveled, Rola A. Clark, the

man with the armor-plate stomach, made a repast which he apparently enjoyed of razor blades, glass from a lamp chimney, tacks from shoes.

\* Witnesses attested to the fact that Clark actually devoured these unusual titbits.

Clark will be seen again at the Palace tonight and at matinee and evening performances Saturday.

**Resignations of Three Dairy, Food Inspectors are Declared Illegal**

St. Paul, Aug. 28.—(UP)—Resignations of three dairy and food, and oil inspectors in answer to a letter of R. A. Trovatten, state commissioner of agriculture, today were declared illegal by Charles E. Phillips, deputy attorney general.

Phillips handed down a ruling after three dairy and food inspectors had refused to relinquish their offices, and Trovatten had requested a decision.

Any employee under the state civil service who signed such a resignation, but who later refused to give up his office, must be discharged in accordance with the regular civil service procedure, the ruling said.

L. B. Anderson, Willmar, H. C. Anderson, Grand Rapids, and L. Monroe, Duluth are the three dairy and food inspectors who have refused to surrender their offices.

Travers Lorrimer, shell-shocked war veteran and son of wealthy Margaret Lorrimer, mistakes pretty Mary Lou Thurston for Delight Harford, whom he is supposed to have married in England. Mrs. Lorrimer induces Mary Lou to assume the role of Delight, of whom no trace can be found. Travers is told he must begin again with friendship. His interest in life is renewed. No mention is made of his marriage until the visit of Larry Mitchell, Mary Lou's friend. Then Travers, believing Larry is in love with Mary Lou, reminds her she is his wife. At Christmas Mary Lou, irritated by Travers' lack of holiday spirit, terms him selfish. Brought to his senses, he joins his mother and Mary Lou in delivering gifts to the needy. At the Veterans' Hospital Travers meets his old buddy Jimmy McEwan, and plans to help him. Travers gives Mary Lou a sapphire ring and speaks of the seal ring he gave her. Mary Lou believes then that he really married Delight, using a seal ring. That night he kisses Mary Lou. Realizing she loves him and cannot go on pretending, Mary Lou plans to leave. Later she changes her mind. Mrs. Lorrimer remarks the change in Mary Lou to Dr. Matthews, who tells her he believes Mary Lou loves Travers.

## CHAPTER XXVIII.

He sighed, a little dispiritedly. "Oh, what a tangled web we weave," he began, half humorously, half gravely. "Don't say it!" she interrupted. "You're not usually so trite, Dan. It will all straighten out, I am convinced of it. And Travers is basically too sane to harbor a grudge against us long. The situation wasn't of our making, originally. Mary Lou came here quite innocently, through the error of a newspaper advertisement. And Travers saw her. And what were we to do when he mistook her for someone else? I think he'll realize all that and also what she's done for him, when the times comes for him to know the truth."

## In the Dark.

"We," Matthews reminded her, "do not know the truth ourselves. Until this other girl is found we won't know it. Even if we succeed in tracing the records of the alleged marriage, we won't know it until we learn beyond a shadow of a doubt that she is dead—or alive."

Mrs. Lorrimer had risen and was standing at the library window. It was almost tea hour and the slanting light of the sun shone in, as she pushed aside the draperies and looked out, and touched her white hair with a finger of pure, pale gold.

"They should be in soon," she murmured. Matthews lit a cigar and stretched himself more comfortably in the easy chair. He was happiest of all when alone with her, like this. He lived nearby and had reduced his practice to a very few old patients, having accumulated and inherited all the money he, a bachelor of no extravagant taste, would ever need.

He had many leisure hours and spent a great portion of them at Westwood. The remainder of his free time was given to his hobbies—the writing of a book which was to be called "Autobiography of a General Practitioner," and the raising of prize dahlias from seeds the flowers of which he exhibited and the bulbs of which he sold.

"It's late," Mrs. Lorrimer remarked again and looked at the

tiny diamond watch upon her wrist. "Where are they?" "And who are they, Margaret? You fuss over that boy far too much."

"Do I?—and I try so hard not to," she murmured. "They are Travers and Mary Lou, of course."

"Some day you'll get confused and call her that," he warned. "No, I don't think so," she told him. "Sometimes I think that's the only way I can remind myself of the true situation by naming her—just to you. Larry Mitchell is here for the week-end and Jenny Wynne is out with the three of them—they are skating on Willow Pond."

"Mitchell is a nice youngster," commented Matthews.

"Yes—he's terribly smitten with Jenny, poor boy. She treats him outrageously—as she treats everyone."

Presently the four came back from the pond, cold and ruddy, trudging up to the house, the comfort of the hearth fire and tea, laughing all the way, their boots crunching in the hard, dry snow. The sun was now at its setting, red and gold, a glory of celestial fire. Presently the sky would alter to that strange, chill green of winter and the evening star would hang like a silver lamp above the bare aspiring arms of the trees.

"Lovely," said Mary Lou—

"lovely . . ."

Her voice broke a little. She had always loved beauty, it had an intimate message for her, but lately, it seemed, it broke her heart.

Larry, with whom she was walking, looked at her quickly. "Steady on," he murmured, for it seemed, no good reason.

It wasn't until he spoke that Mary Lou realized there were sudden tears in her eyes.

She blinked them away, and said, defensively. "Well, it is lovely—"

Jenny broke into a little run. "Golly! I'm frozen," she cried. "Travers, you lazy lump, I'll race you to the house!"

She darted off, slim and straight in her skating suit of scarlet wool, kimmer trimmed. Mary Lou watched her flash along the path between the trees and Lorrimer after her. She remembered how she had raced with him—one day, it seemed very long ago, and yet was just before Christmas.

But since then he had kissed her, under the pale green and amber pearl of the mistletoe; since then she had come to her new wisdom.

Play Safe.

Larry said, low: "You're crazy about him, aren't you? Don't be afraid of me, partner. We've always been friends. I understand, you know. You are, aren't you?"

"Yes," she said, quite simply. "What are you going to do, dear?" he asked her, anxious for her comprehending.

"I don't know. See the farce through. Play the game somehow."

"He's mad about you," Larry said.

"Not me, Delight. The girl he thinks me. Oh, Larry, it's such a miserable tangle!"

"What are you going to do?" he asked her again.

"Play safe, I suppose. Lean backwards." She managed a little brittle laugh, clear and mirthless. "What else can I do?"

"I don't know. I'm—damned sorry," Larry told her, low. "He's a corker, and you've done wonders for him. Getting those kinks ironed out. Getting him back to normal. And what a normal! For before all this happened to him he was one magnificent youngster. Mary

—Delight," he corrected himself. "I've been up to the hospital as he asked me to and seen McEwan, you know. Lorrimer's his god. It's amazing. The stories he told me—"

"Not now, haven't the time. What about Mac anyway, is Lorrimer getting him out of there?"

"I think so. He and Mrs. Lorrimer have been pulling some wires and expect to send him to the Adirondacks in a few weeks' time," she answered. "It's been the best thing in the world for him—for Lorry—to have that interest."

Larry caught her hand. "Hurry—we've been mooching along and they've beaten us to the house," he said, straining his eyes for a scarlet skating suit. "Jenny'll keep!" she laughed. "Don't kid. This is the real thing," said Larry soberly. "I know it. I'm glad. Lucky you," she said, "and lucky Jenny!"

"I'm not so sure about that. She won't be serious. She's met me in town, you know, several times. Lunch, some funny place. Disrespectful, and a show. And I'm out here whenever I can sneak off. But she won't listen, she just laughs."

"That's Jenny's way," said Mary Lou, soothingly. "I wouldn't lose heart."

"Well," said Larry gloomily, "it's all pretty much out of the question, after all, even if she did care anything about me, which she probably doesn't. That girl's like quicksilver. I can't ask her to live in the bountiful earning capacity of a rotten reporter, can I? And I wouldn't live on her money, so that's that. I've got to add to my income somehow. Writing a chapter a year of a novel or a scene every six months of a play won't help much. It will be 20 years, I'll be senile before I get one publisher and the other produced and even then they'll probably be flops, if they get that far, he prophesied drearily. "So I'll have to catch some extra jobs if I'm to keep my head in the game."

"What kind of a job?" asked Mary Lou.

Love's Uncertainty.

"Oh, I don't know. I've heard that I can do press agenting for some Spring show or other if I want. I'll look into it. Give the bird another seed," said Larry irrepressibly, "every five bucks counts in this depleted exchequer!"

They had reached the house and were already there, standing by the fire, thawing themselves out. Peter had arrived with tea and Jenny and Doctor Matthews had started one of their interminable arguments. They were always arguing. And the doctor was getting the best of it. He had brought Jenny into this vale of tears and was not above reminding her constantly of the fact.

"Laggards!" cried Jenny in her clear voice as the other two entered.

Lorrimer glanced at them a brief moment. He had been reassured as to the state of Mitchell's affections, and had observed, for himself, Jenny's effect upon that usually volatile young man, but he was unreasonably uneasy in that curious lover-state of being suspended between heaven and earth, or heaven and hades. It was incredible to him that anyone knowing "Delight" should prefer Jenny or should not, at all, succumb beneath the arch of Delight's slender instep.

And Larry was attractive. (To Be Continued Tomorrow)

Jenny broke into a little run. "Golly! I'm frozen," she cried.

"Travers, you lazy lump, I'll race you to the house!"

She darted off, slim and straight in her skating suit of scarlet wool, trimmer trimmed. Mary Lou watched her flash along the path between the trees and Lorrimer after her. She remembered how she had raced with him—one day, it seemed very long ago, and yet was just before Christmas.

But since then he had kissed her, under the pale green and amber pearl of the mistletoe; since then she had come to her new wisdom.

## Play Safe.

Larry said, low:

"You're crazy about him, aren't you? Don't be afraid of me, partner. We've always been friends. I understand, you know. You are, aren't you?"

"Yes," she said, quite simply.

"What are you going to do, dear?" he asked her, anxious for her comprehending.

"I don't know. See the farce through. Play the game somehow."

"He's mad about you," Larry said.

"Not me, Delight. The girl he thinks me. Oh, Larry, it's such a miserable tangle."

"What are you going to do?" he asked her again.

"Play safe, I suppose. Lean backwards." She managed a little brittle laugh, clear and mirthless.

"What else can I do?"

"I don't know. I'm—damned sorry," Larry told her, low. "He's a corker, and you've done wonders for him. Getting those kinks ironed out. Getting him back to normal. And what a normal! For before all this happened to him he was one magnificent youngster. Mary

"Delight," he corrected himself. "I've been up to the hospital as he asked me to and seen McEwan, you know. Lorrimer's his god. It's amazing. The stories he told me—"

"Tell me, Larry!" she begged.

"Not now. Haven't the time. What about Mac anyway, is Lorrimer getting him out of there?"

"I think so. He and Mrs. Lorrimer have been pulling some wires and expect to send him to the Adirondacks in a few weeks' time," she answered. "It's been the best thing in the world for him—for Lorry—to have that interest."

Larry caught her hand.

"Hurry—we've been mooching along and they've beaten us to the house," he said, straining his eyes for a scarlet skating suit.

"Jenny'll keep!" she laughed.

"Don't kid. This is the real thing," said Larry soberly.

"I know it. I'm glad. Lucky you," she said, "and lucky Jenny!"

"I'm not so sure about that. She won't be serious. She's met me in town, you know, several times. Lunch, at some funny place. Dinner, too, and a show. And I'm out here whenever I can sneak off. But she won't listen, she just laughs."

"That's Jenny's way," said Mary Lou, soothingly. "I wouldn't love heart."

"Well," said Larry gloomily, "it's all pretty much out of the question, after all, even if she did care anything about me, which she probably doesn't. That girl's like quicksilver! I can't ask her to live in the bountiful earning capacity of a rotten reporter, can I? And I wouldn't live on her money, so that's that. I've got to add to my income somehow. Writing a chapter a year of a novel or a scene every six months of a play won't help much. It will be 20 years, I'll be senile before I get one published and the other produced and even then they'll probably be flops, if they get that far," he promised dreamily. "So I'll have to catch me some extra jobs if only to keep her in lunches. She has expensive tastes in food!"

"What kind of a job?" asked Mary Lou.

"Love's Uncertainty."

"Oh, I don't know. I've heard that I can do press agenting for some Spring show or other if I want. I'll look into it. Give the bird another snarl," said Larry, contemptuously. "Every five bucks counts in this depleted exchequer!"

They had reached the house and went in. Lorrimer and Jenny were already there, standing by the fire, thawing themselves out. Peter had arrived with tea and Jenny and Doctor Mathews had started one of their interminable arguments. They were always arguing. And the doctor was getting the best of it. He had brought Jenny into this vale of tears and was not above reminding her constantly of the fact.

"Laggards!" cried Jenny in her clear voice as the other two entered.

Lorrimer glanced at them a brief moment. He had been reassured as to the state of Mitchell's affections, and had observed, for himself, Jenny's effect upon that usually volatile young man, but he was unreasonably uneasy in that curious lower-state of being suspended between heaven and earth, or heaven and hades. It was incredible to him that anyone knowing "Delight" should prefer Jenny or should not, at once, succumb beneath the arch of Delight's slender instep.

And Larry was attractive.

Older Known Colors

The oldest existing colors created by man were found in a cavern used by the Cro-Magnon race in Europe around 10000 B. C. They were red and yellow produced by drenching a fine clay containing iron (ocher) on the walls in the form of a decoration.
